

**2018 Membership fees are due on 1 January 2018**

# ANNUAL CIRCULAR 2018

*International Society of Limnology*

*A message from the SIL President and General Secretary-Treasurer*

*December 2017*

Dear SIL members,

Finally! The SIL Proceedings (“Verhandlungen” and SIL Communications “Mitteilungen”) are now available on-line! This is the largest archive of limnological knowledge ever assembled. It retraces the entire history of our discipline, from the pioneering lake classification based on benthic fauna developed by Thienemann (vol. 1, 1923), the early links between nutrient loading and the eutrophication of L. Washington by Edmondson (vol. 14, 1961), Mortimer’s classic essay on lake hydrodynamics (Mitteilungen, 1974), Schindler’s whole-lake experiments (vol. 19, 1975), to Downing’s plea for a more global limnology (vol. 30, 2009). The discussions between the leading limnologists of the day found at the end of many articles (up to the early 1980s) make for a fascinating read. Now available in electronic pdf format, each article is fully searchable and, as we wait for search engines (e.g. Google) to complete their indexing, all the articles will become even easier to find.

As a SIL member, you are entitled to free access to this treasure trove of limnological data and information. A total of nearly 10,000 short (Proceedings) and longer (Communications) articles published between 1922 and 2010 are included in those SIL publications. Those of you that have published in the Proceedings should have received an e-mail from our publisher, Taylor & Francis, notifying you that your article is now available in electronic format with a link for downloading it. You can now access the series and download any article you wish, by logging-in as a SIL member on the SIL website, then clicking on the *SIL Proceedings* icon on the right side. The two series are searchable by Author name, title, keywords.

Cover pages for the SIL Proceedings (left) and SIL Communications (right). Artwork by Tony Thorp.

This announcement ends a long process initiated at the SIL Congress in Budapest, when a decision was made to invest in the digitization of the Proceedings. This process included long negotiations, purchase of publication rights from the original publisher (Schweizerbart), finding complete sets of hard copies of the two series (including donations from the library of the Limnological Institute of the University of Konstanz and from individual SIL members for volumes that were out of stock), transport of the hard copies (occupying some 3-running-meters of shelf space) to Taylor and Francis, digitization, and uploading to the *Inland Waters* website. I would like to thank those that have taken part in the process, including:

- David Livingstone – for initiating the process and advancing the negotiations
- Karl-Otto Rothhaupt – for hosting the stock of hard-copies from Schweizerbart, and adding to it many of the missing volumes
- The library of the Limnological Institute of the University of Konstanz, Germany – for donating many missing volumes
- Marry Morris – for donating a missing volume
- Tony Thorp – for making the two inspiring cover pages posted below, one for each series
- Taylor & Francis – for collecting the volumes, scanning and publishing on-line
- And last but not least – Yves Prairie, Jack Jones and Tamar Zohary, for making it all happen.

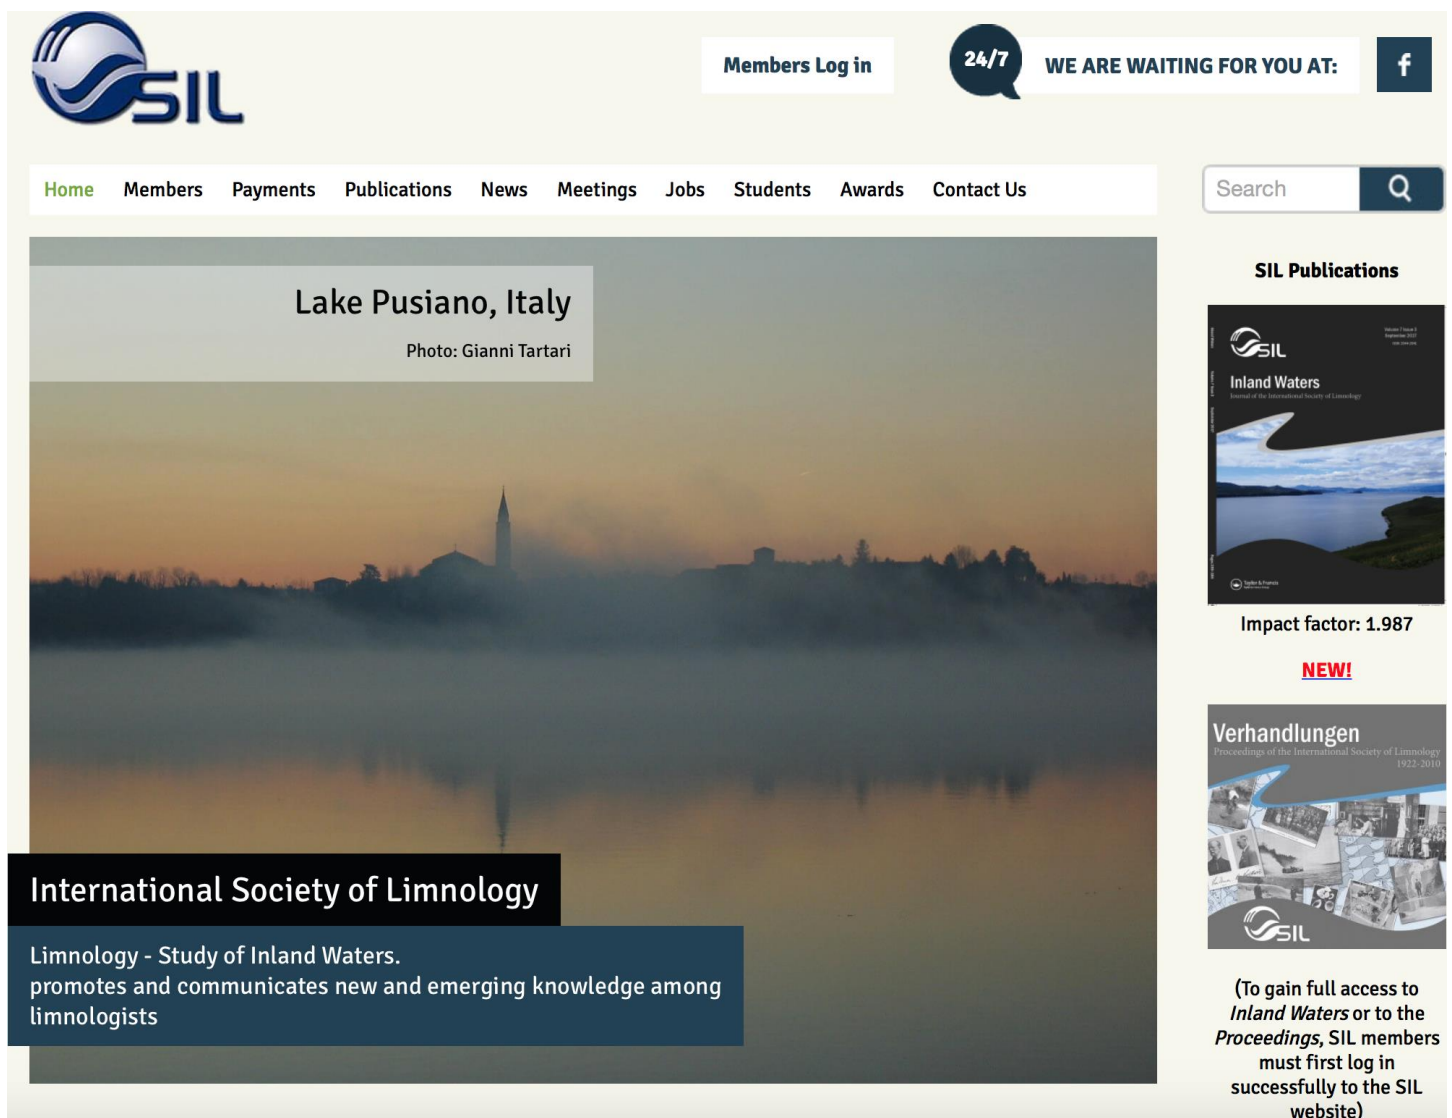

To be able to have access, we remind all of you to renew your SIL membership for 2018, and encourage your students and early-career colleagues to join SIL.

Sincerely yours,  
Tamar Zohary and Yves Prairie

## VISIT THE SIL WEBSITE

SIL's webmaster for many years, Gordon Goldsborough from the University of Manitoba in Winnipeg, Canada, is retiring from webmaster duties. We are all extremely grateful to Gordon for providing excellent long-term service, voluntarily. SIL is in the process of appointing a replacement, to be announced shortly. If you are interested in learning to run a website and help out – please contact Tamar.

Make a habit of visiting the SIL website from time to time at [www.limnology.org](http://www.limnology.org). News from the SIL board is advertised there. Updates are being recorded there. A link to the website of the 2018 SIL Congress in Nanjing, China, is now active. A new icon on the home page will take you to the archive of the SIL Proceedings (Verhandlungen) and SIL Communications (Mitteilungen). You can now access those archives and download articles after logging in as a SIL member. If you wish your most beautiful lake photos to also be posted on the SIL website homepage, announce of an open position, post a call for candidates to a scholarship, or even advertise that you are looking for a position/scholarship in Limnology - please send your material to Tamar.

The screenshot shows the SIL website homepage. At the top left is the SIL logo. To its right are buttons for "Members Log in", a "24/7" badge, and "WE ARE WAITING FOR YOU AT:" with a Facebook icon. Below this is a navigation menu with links: Home, Members, Payments, Publications, News, Meetings, Jobs, Students, Awards, Contact Us. A search bar is located on the right. The main content area features a large image of Lake Pusiano, Italy, with the text "Lake Pusiano, Italy" and "Photo: Gianni Tartari". Below the image is a dark blue box with the text "International Society of Limnology" and "Limnology - Study of Inland Waters. promotes and communicates new and emerging knowledge among limnologists". On the right sidebar, there are sections for "SIL Publications" and "Verhandlungen". The "SIL Publications" section shows the cover of "Inland Waters" with an impact factor of 1.987 and a "NEW!" badge. The "Verhandlungen" section shows the cover of "Proceedings of the International Society of Limnology 1922-2010". At the bottom of the sidebar, there is a note: "(To gain full access to *Inland Waters* or to the *Proceedings*, SIL members must first log in successfully to the SIL website)".

SIL's homepage at [www.limnology.org](http://www.limnology.org)

## DID YOU KNOW?

- Did you know that in many countries you can pay SIL dues from your grants, or your continuing education funds?
- Did you know that being a part of a professional organization/society like SIL looks good on your CV?
- Did you know that SIL has mentors who volunteer to advise students and junior scientists in their limnology work? See details at <http://limnology.org/students/sil-mentors/>.

## SEE SIL'S FACEBOOK PAGE!

I would like to once again invite you to contribute to the online activities of SIL – Facebook and Twitter exchange.

The Facebook profile of SIL is becoming more and more popular within the limnological community and some of the post reached more than a thousand views within the first few days after posting. This is the easiest and most convenient way to communicate short messages of immediate importance or to quickly advertise upcoming events. This is also the easiest way to reach more broad audience of limnologists and scientist from other disciplines. However, perhaps the largest advantage of Facebook communicates is that they are available for anyone interested in lake science, global climate changes, environmental and political issues concerning inland waters. Ultimately SIL experts may serve the general public in distinguishing between reliable sources and mere opinions also via Facebook activities ( <https://www.facebook.com/SIL-The-International-Society-of-Limnology-324986017706390/>).

-Maciej Bartosiewicz, SIL Facebook Manager, Basel University, Switzerland

## DO WE HAVE YOUR CORRECT E-MAIL ADDRESSES?

As always, if you change your email address, please let Denise Johnson know.

## SIL STUDENT COMPETITION 2018

### 2nd SIL International Student Competition

A second SIL International Student Competition was announced earlier this year, for the best published paper in Limnology appearing as part of a recent Ph.D. or M.Sc. thesis of a SIL member.

**The prize:** Plenary talk at the 2018 SIL Congress in Nanjing, China with gratis participation.

Stage 1 of the competition (national level) is now reaching its end. A total of 40 applicants from 22 countries entered this first stage. These countries and the number of participants from each are: Algeria (1), Argentina (2), Australia (2), Austria (1), Belgium (1), Brazil (4), Canada (3), China (1), Finland (2), Germany (2), Hungary (1), Israel (2), Italy (1), Japan (1), Korea (1), New Zealand (1), Philippines (2), Poland (2), Spain (4), Sweden (1), The Netherlands (4), UK (1).

By 15 December 2017 each participating country will choose its single best applicant, to be its representative in the second stage (international level) of the competition. Exceptions were countries with more than 50 SIL members that could send 2 competitors. The chosen competitors from those 20 countries will enter the second stage. The competing papers will be sent to an international committee of assessors, who will rank them. The winners (first 3 places) will be awarded at the August 2018 SIL Congress in China.

The awards will consist of one main and two additional prizes, plus merit certificates to all those participating in Stage 2 of the competition:

- The main prize will consist of a certificate and a grant to attend the August 2018 SIL Congress in Nanjing, including registration fee and travel costs. The winning author will be invited to give a Plenary Lecture on his/her winning article.
- The winners of the second and third prizes will receive certificates and grants to cover their congress registration and accommodation. They will present their papers as regular presentations.
- All participants of Stage 2 will receive a certificate and be invited to present their papers (oral or posters).

## SIL MEMBERSHIP DUES

SIL membership year is by calendar year. Please pay dues at the end of the calendar year for the next calendar year. Pay now for 2018 memberships.

- 1) On the SIL website ([www.limnology.org](http://www.limnology.org)) using a credit card
- 2) On the SIL website ([www.limnology.org](http://www.limnology.org)) using a credit card through the PayPal\* account
- 3) Send your credit card details directly to the main SIL Office
- 4) Mail a check for payment from a USA recognized bank to the main SIL Office
- 5) Pay annual dues to your local SIL National Representative, in your local currency. The names and contact details of the SIL NRs that assist in collecting SIL dues are listed on the SIL website at <http://limnology.org/national-representatives/>

\* The least expensive way for transferring money across borders is via PayPal.

Members who paid their dues will have free access to all of SIL's publications from the SIL website after logging in using their personal username and password. This free access includes *Inland Waters* as well as the past SIL Proceedings (Verhandlungen) and Communications (Mitteilungen).

## 34TH SIL CONGRESS IN CHINA

The XXXIV SIL Congress will be held in Nanjing (Jiangsu Province), China from **19 – 24 August 2018**. We are looking forward to seeing you in China in 2018. For information please check the congress website at ([www.sil2018.com](http://www.sil2018.com)).

### **Contact information:**

Secretariat of SIL 2018

Nanjing Institute of Geography and Limnology, Chinese Academy of Sciences

East Beijing Road 73, Nanjing 210008,

Jiangsu Province, CHINA

E-mail: [sil2018@niglas.ac.cn](mailto:sil2018@niglas.ac.cn)

Tel: 0086-(0)25-86882103; 86882213

Fax: 0086-(0)25-57714759

Website: <http://www.sil2018.com/>

**Host city:** Nanjing, the capital of Jiangsu Province, China.

The preparations for the SIL Congress at Nanjing-China in August 2018 are now at full-blast, with the call for Special Sessions open till 15 December. Our president Yves Prairie and our General Secretary-Treasurer Tamar Zohary have returned recently from a short visit to Nanjing, to discuss the details of congress preparations with the Congress Organizer, Zhengwen Liu and the organizing team from NIGLAS, the Nanjing Institute of Geography and Limnology of the Chinese Academy of Sciences, and to see the conference venue. They found a team of Chinese researchers and students that are truly dedicated to the task of hosting us all next year in the best possible manner. They also found a fantastic, modern and well-equipped congress center, with comfortable and conveniently located near-by hotels at a range of prices from very affordable, to 5-stars. Today's Nanjing is a modern city, most street signs, business signs and other posts are written in both Chinese and English, the young generation of Chinese people speak at least some English, the city is well covered by a Metro system. Being in China and witnessing the incredible modernization this developing country has undergone over the last two decades is an amazing experience. They were convinced that this congress will be a great success.

**Congress venue:** Nanjing International Expo Center, Jiangdong Zhong Lu 300, Jianye District, Nanjing, Jiangsu province, China

## **FUTURE CONGRESSES**

It was decided that as an experiment, during the period 2018-2022 SIL Congresses would be held on a biennial basis (2018, 2020, and 2022).

The 35<sup>th</sup> SIL congress will be held in Gwangju (South Korea) in 2020. Detailed information will be posted as the schedule is fixed.

The 36<sup>th</sup> SIL Congress will be held in 2022 in Germany, where the first SIL Congress was held. At this congress SIL will be celebrating 100 years to its establishment. Don't miss this celebration!

### **FUTURE CONGRESS PROPOSALS:**

Do you want to host a SIL Congress in your country? SIL members who have recommendations or want to make inquiries leading potentially to a proposal for sponsorship of a congress are urged to contact the SIL General Secretary-Treasurer.

The 37<sup>th</sup> Congress (2024) will be open for bids to be presented at the 2020 congress in South Korea. Note that from now on, countries winning the bid to host a SIL Congress will have to sign a Memorandum of Understanding (MoU) with SIL before their final acceptance as congress hosts. This MoU will clarify the mutual organizational and financial arrangements between SIL and the host.

## **OTHER PROFESSIONAL MEETINGS**

If you are organizing a regional or thematic meeting in the intervening years, please consider making SIL a sponsor of your meeting by contacting Yves Prairie or Tamar Zohary.

## **DONATIONS**

We urge you to contribute to our Endowment, General SIL, Student Conference, Tonolli, or Wetzel Funds. The money in these funds is used to sponsor members in a variety of SIL activities. These funds are also tax deductible. SIL will send you a letter of receipt.

## PUBLICATIONS

### **Inland Waters:**

*Inland Waters*, the peer-reviewed journal of the International Society of Limnology, is now entering its 8<sup>th</sup> year, with issue 7(3) already published and issues 7(4) and 8(1) in the making. Four print issues are published annually. The journal's impact factor has been increasing steadily from 1.31 in 2014 to 1.776 in 2015, and to 1.987 in 2016. Also, the ranking of *Inland Waters* has increased from #8 out of 20 (8/20) in the Limnology category in 2015 to 6/20 in 2016. These are excellent news for our relatively new society journal.

Publication in *Inland Waters* is not restricted to SIL members, but members are exempt from page charges (first author has to be a member in good standing) whereas non-members are charged USD75/page. Furthermore, SIL members have a substantial discount (close to USD1,000) on the Gold Open-Access price. To view the journal or submit a manuscript, visit the journal website: log-in on the SIL website at [www.limnology.org](http://www.limnology.org), then click on the icon of *Inland Waters* on the right.

-John R. Jones, SIL Editor-In-Chief, University of Missouri-Columbia, USA

### **SIL news:**

The SIL newsletter updates you on conferences and courses that have taken place, awards given, as well as those scheduled to occur in the near future. It usually features several exciting articles on lakes around the globe, often with exceptional photos. Send your lighter but still fascinating material to Ramesh Gulati, the editor for SIL news.

## SPONSOR A MEMBER

Some members have generously contributed sufficient funds to sponsor a researcher or student of limnology from countries from which it is difficult to pay our modest membership fee. Please contact the General Secretary-Treasurer for details if you are interested in contributing.

## HAVE YOU SIGNED UP TO BE A MENTOR?

Mentors are willing to offer advice to students and junior scientists seeking to publish their research findings, in some of the following ways:

- Screening of data for its suitability for publication
- Advice on a target journal
- Help in preparing a paper together in a constructive and professional atmosphere
- Provide follow-up after the review process
- Advice on career planning
- 

This is a way of helping young people, especially in the developing world, who will really appreciate your advice and wisdom. See more at <http://limnology.org/students/sil-mentors/> If you are willing to join this cause, please send your research interests to Denise Johnson ([siloffice1922@gmail.com](mailto:siloffice1922@gmail.com)).

## International Society of Limnology (SIL)

*All members send their subscriptions (dues) to their national representative, the SIL Business Manager, or pay on-line at the rates indicated.*

The following countries without a national representative and with annual Gross Domestic Products (Gross National Incomes) per capita of US\$ 25,000.00 or lower (based on the World Bank list for 2015) will pay 50% of the full rate in U.S. Dollars, by check drawn on an international bank in the USA that is recognized by the Federal Reserve System, by major credit card (Visa or MasterCard), or online at the SIL Website by PayPal:

Algeria, Bangladesh, Bosnia-Herzegovina, Botswana, Chile, Colombia, Costa Rica, Croatia, Cyprus, Democratic Republic of Congo, Ecuador, Egypt, Estonia, Ethiopia, Ghana, Hong Kong, India, Indonesia, Kazakhstan, Kenya, Malawi, Malaysia, Mauritania, Nigeria, Oman, Paraguay, Peru, Philippines, Portugal, Russia, Rwanda, Serbia, Slovenia, South Africa, Sri Lanka, Taiwan, Turkey, Ukraine, Uruguay, and Venezuela

Members from Denmark and Iceland pay at the rate indicated for USA Members in the chart below.

| Students (developing countries) | Must pay for 3 years at once, via their national representative or individually as explained above   | 5.00/year         |
| Students (developed countries)  | Must pay for 3 years at once, via their national representative or individually as explained above   | 10.00/year        |

**INTERNATIONAL SOCIETY OF LIMNOLOGY (SIL)  
MEMBERSHIP APPLICATION/DUES PAYMENT FORM (Please print)**

|                                    |
|------------------------------------|
| <b>Name (First, Middle, Last):</b> |
| <b>Title:</b>                      |
| <b>Date of birth:</b>              |
| <b>Email address:</b>              |
| <b>Country:</b>                    |
| <b>Fields of Interest:</b>         |

**DUES AMOUNT BY MEMBERSHIP CATEGORY:**

|                          |  |
|--------------------------|--|
| <input type="checkbox"/> | <b>REGULAR MEMBER--from Developed Countries</b> 93.60/USD, and <b>from Developing Countries</b> with Gross Domestic Products (Gross National Incomes) per capita of US\$ 25,000 or lower (based on the World Bank list for 2015) 46.80/USD.  |
| <input type="checkbox"/> | <b>STUDENT MEMBER</b> —All students for a maximum of six years registered for degrees, but yet not having attained the degree pay:<br>From developing countries 5.00/USD per annum, <b>but must pay for 3 years at once = (15.00/USD total)</b> .<br>From developed countries 10.00/USD per annum, <b>but must pay for 3 years at once (30.00/USD total)</b> .   |
| <input type="checkbox"/> | <b>EARLY CAREER MEMBER--50% reduction of regular member fees (of their residing country) for a maximum of five years</b>   |
| <input type="checkbox"/> | <b>EMERITUS MEMBER--</b> individuals who, after retirement, request emeritus status and are approved by the Executive Board. Emeritus members pay no dues and receive no publications, or pay 50% dues and receive publications.   |
| <input type="checkbox"/> | <b>FAMILY MEMBER--50% reduction of regular member fees (of their residing country). One person of a marriage is a member at the full rate, then the spouse may be a member at half membership fee rate</b>   |
| <input type="checkbox"/> | <b>LIFE MEMBER</b> --Individuals who make major financial contributions to SIL. The minimum contribution for this category of membership consists of 40 times the prevailing dues. These contributions will be placed in a special endowment fund intended to help young limnologists attend congresses and other meetings sponsored by SIL. No annum dues fees. |

**INLAND WATERS**

The Journal of the International Society of Limnology is an international, peer-reviewed journal for original papers that advance our understanding of inland aquatic ecosystems and their management. It is not restricted to SIL members.

This journal replaces the SIL Proceedings (Verhandlungen), but will remain as faithful as possible to the niche that SIL occupies, with encouragement of a worldwide set of authors and short (except for papers arising from named and plenary talks at Congresses), rapidly published papers. The scope of the journal includes all aspects of physical, chemical, and biological limnology, as well as applied and regional limnology.

Inland Waters publishes papers online consecutively, and then in four (4) print issues per year. To view the journal or submit a manuscript, visit the SIL website: ([limnology.org](http://limnology.org)). SIL members are entitled to free online access as part of their membership.

**JOURNAL VERSIONS**

|  |   |  |
|--|---|--|
| <input type="checkbox"/> Online version (comes with SIL Membership). | <input type="checkbox"/> If you only want printed version, you must pay an additional 113.00/USD a year (regular dues + 113.00/USD) | <input type="checkbox"/> If you want both online and printed version, you must still pay an additional 113.00/USD a year (regular dues + 113.00/year). |
